

Sewing

At **Luton Adult Learning** we are passionate about arts and crafts and their many therapeutic benefits; such as reducing stress, building confidence and improving memory, mental health and wellbeing.

Taking part in an art and craft class also provides a great opportunity to socialise with other like-minded individuals in a supportive environment. All our courses will be held at our town centre location, **2 Dunstable Road**.

We are offering a range of sewing courses throughout the year from courses for complete beginners to those with a little more experience. Beginners will create a range of samples demonstrating a selection of sewing techniques before putting them into practice creating a final scale garment. During the "Beyond the Basics" & workshop courses you will take your skills further using commercial patterns to create your own garments or bags.

You will be required to provide your own materials and equipment for this course. The teacher will advise you of what is needed in the first session. *Sewing machines are available for use but you must bring everything else.*

COURSE	START TIME	END TIME	START DATE	END DATE	DAY	FULL FEE	BENEFIT FEE
