

# SUCCESS STORIES

**Ken Jones**

**Digital Learning for Beginners**

Since I was made redundant I have applied for more than 20 jobs which I have been turned down for, and this has made me feel really depressed.

At NOAH I have met new people and had a laugh and a joke while learning how to use the computer. I have not used a computer before, not even at work.

The course has been great and has made me feel more confident. It has improved my confidence and motivation quite a bit as I now realise what I am capable of. I have also grown in confidence through

the social aspect of the course as I have met new people.

A friend of mine recently asked me to apply for a job with an airline catering company at the airport. I have a second interview for this today. This is a permanent post so I'm really looking forward to seeing how it goes!
